

ANC-108D Template Instructions

- To edit the template, select the text above the button
Note: Changing spacing on the template document will cause the template to misalign and print incorrectly
- Use the manual feed slot when loading the template sheet
- Be sure that the paper is level and straight prior to printing
Note: The template sheet is equidistant on both sides, if a mistake is made in printing, the template sheet can be turned over and reprinted on the back of the sheet
