

Letter of Volatility

This letter describes volatile, non-volatile, and storage media on the specified product(s). Customers can use this document to comply with security requirements and equipment handling procedures.

For additional information, please contact Atlona at 408.962.0515 or visit <https://www.atlona.com>.

Product Information	
Model Numbers	AT-OME-MH21
Manufacturer	Atlona Inc
Address	70 Daggett Drive, San Jose, CA 95134
Engineer	Mark Oakes

Volatile Memory

This product contains SRAM / DRAM memory.

Size	User Modifiable	Function	Process for Clearing
64MB (NUC)	No	Internal DRAM for product operation	Remove power from the unit
200K x 8bits (LPC1830)	No	Internal SRAM for product operation	Remove power from the unit

Non-Volatile Memory

This device uses on board Flash Memory.

Size	User Modifiable	Function	Process for Clearing
1Gb x 8bits	No	Store product firmware	Atlona hardware tool
4M x 8bits	No	Store product firmware	Atlona hardware tool

EEPROM

This device uses on board EEPROM.

Size	User Modifiable	Function	Process for Clearing
64K x 8bits	No	Store system information	Atlona hardware tool
32K x 8bits	No	Store system information	Atlona hardware tool

Media

This device contains no other media storage devices such as: CD/DVD drives, floppy drives, tape drives, or memory cards.

Summary

The AT-OME-MH21 does not have any mechanism to hold any audio samples, video images or user information other than a login password. The hardware may be reset to factory condition by using the tools as listed in the memory sections above.
