Contact Information

Velocity – AV control, scheduling, configuration, and remote access
An innovative IP-based control system that saves valuable time with the ability to configure control systems in minutes, and quickly make system modifications free of extensive programming. In addition to AV control, Velocity includes calendar integration for room scheduling touch panels, centralized configuration of AV devices, and remote management from the cloud. Page: 5

OmniStream – Uncompromised AV over IP performance and reliability
Delivers high performance, dependable AV distribution, plus the unrestricted scalability and cost efficiency of integrating over data networks. OmniStream Pro is engineered for the most demanding, mission-critical applications. OmniStream R-Type offers performance and capabilities optimized for light commercial AV distribution. Page: 7

WAVE – Wireless Audio Visual Environment for collaboration
A universal wireless BYOD system for up to four presenters to cast right from their mobile devices. The WAVE also supports digital signage, YouTube live streaming, video playback, and more. Page: 9

Omega – AV for modern workspaces and meeting environments
A family of switching, extension, and video processing solutions with features and technologies designed for today’s meeting and gathering spaces. Transmitters: Connectivity into an AV system for source devices with HDMI or USB-C outputs, as well as USB for video conferencing applications. Switchers: Compact matrix switchers designed specifically for small to medium-sized presentation applications. Receivers: Slim and compact for discreet installation, and a range of features and capabilities beyond receiving HDBaseT from a transmitter or switcher. Page: 11

Captivate™ – High performance videoconferencing solutions
A series of audio video solutions developed specifically for unified communications (UC) applications. The auto-framing camera and USB / Bluetooth® speakerphone work in unison to optimize soft codec videoconferencing experiences. Page: 15

Visit atlona.com for more complete product information, including datasheets and specifications.
Application: Huddle Space Videoconferencing

Many workers have become accustomed to hosting videoconferencing sessions on their laptop. At the office, they may be required to host these sessions in a conference space and include in-person attendees. In these instances, it is important to have the right AV equipment, so all participants are seen and heard clearly.

Atlona offers critical components that help improve the soft codec videoconferencing experience. The AT-OME-MH21 is versatile USB-C and HDMI switcher equipped with a USB 3.0 hub for video conferencing peripherals. Our new Captivate™ Series of audio and video solutions for unified communications (UC) includes the AT-CAP-FC110 auto framing camera and the AT-CAP-SP100 USB / Bluetooth® speakerphone.

When users connect their laptop to the system, they gain access to the high-resolution camera and conferencing grade speakerphone for use with popular applications such as Zoom and Microsoft Teams®.

- **Conferencing Grade AV** – The Captivate Series camera and speakerphone provide video capture and audio performance far superior to the native abilities of laptops.
- **USB-C Support** – A single connection between the user’s laptop and the system provides access to the display, camera, and speakerphone.
- **Automatic Display Control** – Turns the display on when a laptop is connected and off when it is disconnected.

### Featured Products

- **2x1 Switcher for HDMI and USB-C with USB Hub**
  - AT-OME-MH21, see page 12

- **Captivate 4K ePTZ Auto-Framing Camera**
  - AT-CAP-FC110, see page 15

- **Captivate USB / Bluetooth Speakerphone**
  - AT-CAP-SP100, see page 15

Visit [atlona.com](http://atlona.com) for more complete product information, including datasheets and specifications.
Meeting spaces need to support in-person presentations and remote videoconferences as well as hybrid collaboration that includes both. Automating start-up of AV equipment with components that include the following capabilities help these meetings run smoother.

- **OCCUPANCY DETECTION** – Use presence of individuals in the room as a guiding factor for the state of the AV technology.
- **AUTOMATIC DISPLAY CONTROL** – Turn the display on or off based on status of an occupancy sensor.
- **WIRELESS PRESENTATION** – Mirror content from personal BYOD devices over Wi-Fi®.
- **MULTI-FUNCTION SENSOR** – Capture temperature and ambient light levels in addition to occupancy and pass that information to Atlona products and third-party systems to control room elements.

For example, the AT-OCS-900N occupancy sensor can detect activity in a room and communicate that information over the network to the AT-WAVE-101 which instructs the display to turn on. The user then connects wirelessly to the WAVE-101 to mirror their content on the display. When participants leave the space, the occupancy sensor detects vacancy and works with the WAVE-101 to shut-down the AV system. The OCS-900N can also use the network to share occupancy, temperature, and light level information with Velocity™ to control more complex AV systems as well as screens, shades, and lighting.

AV control, scheduling, configuration, and remote access

Atlonas Velocity™ is an innovative IP-based control platform that offers a comprehensive set of capabilities for modern AV installations. It saves valuable time with the ability to configure control systems in minutes, and quickly modify functionality free of extensive programming. In addition to AV control, Velocity includes calendar integration for room scheduling touch panels, centralized configuration of AV devices, and remote management from the cloud.

QR BYOD OR TOUCH PANEL
AV control with touch panels or scan the QR code and use your BYOD device

ROOM SCHEDULING
Supports calendar integration with Google Workspace™, Office 365™, Exchange®, and Astra Schedule

ASSET MANAGEMENT
Atlonas Management System (AMS™) for configuring and deploying AV devices

CUSTOMIZABLE GUI
Redesigned tool makes it easier than ever to create elegant user interfaces

FAST CONFIGURATION
Configure control systems in minutes with intuitive navigation and menus

AFFORDABLE SCALABILITY
Integrate multiple AV systems from a single processor and lower your costs

REMOTE GATEWAY
Optional Velocity Premier Service for configuration, management, and control over the Internet

ENHANCE COLLABORATION
AV integration into Cisco® and Zoom meeting spaces with video conferencing

SYSTEM REDUNDANCY
Add a second processor for redundancy and built-in disaster recovery

Visit atlona.com for more complete product information, including datasheets and specifications.

Velocity

Velocity System Gateways
At the heart of every Velocity system is the gateway, a server that provides processing for a single or multiple rooms of AV control and scheduling. Each gateway also includes the Atlona Management System (AMS) for configuring and managing Atlona devices.

Premier Services - Remote Gateway
AT-VPS-RG-T1 • AT-VPS-RG-T2 • AT-VPS-RG-T3
Securely configure and manage gateways over the Internet
Automatically backup gateway databases to the cloud
Support QR code and BYOD control of AV systems over the users Internet connection instead of through the AV LAN
Multiple tiered levels of service available

* Total available IP device capacity for AV system control, room scheduling, and AV asset management is dependent on server hardware.

Uncompromised AV over IP performance and reliability

The ultimate AV distribution platform for integrators to design and build flexible, scalable, and cost-effective AV systems – with best-in-class AV over IP performance and reliability over Gigabit Ethernet.

**OMNISTREAM PRODUCT FAMILIES** – Tailor an OmniStream networked AV system design to your specific needs:

- **OMNISTREAM PRO** – Networked AV designed for conference rooms, lecture halls, facilities, and more, plus AV distribution over large networks
- **OMNISTREAM R-TYPE** – Networked AV streamlined for light commercial AV distribution applications

- **4K HDR**
  Supports HDR formats including Dolby® Vision™, HDR10, and HLG

- **1 GB Ethernet**
  Works over new or legacy network infrastructure

- **Plug and Play**
  Ready to go with popular network switches from Cisco®, NETGEAR®, and many others

- **Secure**
  Supports IEEE 802.1x, HDCP 2.2, AES-128, and other security protocols

- **Video Walls**
  Simple, effortless setup and configuration for video walls (landscape or portrait screens)

- **POE**
  Power all encoders and decoders from a network switch with standard PoE

- **AV Switching**
  Virtual auto-switching with grouped or daisy-chained encoders

- **Fast Switching**
  Deliver ultra-fast, <10 ms AV switching (1080p or WUXGA output)

- **Ultra-Low Latency**
  Less than 1 frame latency from encode to decode

Effortless screen casting from any mobile device

The Atlona Wireless Audio Visual Environment (WAVE) is designed for easy content sharing from iOS®, Android™, Mac®, Chromebook™, or Windows® devices. The WAVE-101 allows up to four presenters to share their content simultaneously on-screen, with a moderator mode available for managing additional presenters. Wireless BYOD interfacing is simply enabled through the device’s native casting protocol, with no setup necessary beforehand.

For hands-free, effortless user operation, Dynamic Layout Mode™ is an innovative feature of the WAVE-101 that automatically adapts the on-screen layout to incoming or disconnected source content, to optimize the way the content is presented on the screen.

The WAVE-101 is equipped with a host of additional features to enhance education, corporate, and many other applications, including YouTube Live streaming, support for cloud-based digital signage applications, playback of locally stored images and video, and much more.

Visit atlona.com for more complete product information, including datasheets and specifications.

Wireless Presentation Platform

AT-WAVE-101

allows simultaneous content sharing for up to four presenters

instructor mode allows a user to manage content, upload and play media content, stream YouTube™, and switch between layouts

Optional Wi-Fi® Access Point — with built-in firewall

supports cloud-based digital signage platforms

supports YouTube Live streaming

Dynamic Layout Mode automatically adapts to incoming or disconnected source content (patent pending)

Wireless Screen Casting through native AirPlay®, Google Cast™, or Miracast™ protocols

Supports Wireless Video up to 1080p30 4:2:0 (up to 1080p60 with Miracast)

Local Storage available for playback of images and video

Programmable Display Control based on time schedules via IP, RS-232 (with optional adapter), or TCP proxy

Automatic Display Control available with the AT-OCS-900N occupancy sensor

Centrally configure and manage WAVE-101 units with AMS (Atlona Management System™)
The WAVE-101 is ideal for classrooms and meeting spaces, as well as open gathering areas where people come together to collaborate and communicate. The appeal of this product is the ability for participants to quickly and easily share content right from their laptops, smartphones, or tablets, with no advance setup necessary.

The WAVE-101 allows multiple students to share from their seats, with the instructor controlling the presentation through a specially designed moderator mode.

**Wireless BYOD connections as easy as 1-2-3**

The WAVE-101 lets you cast your screen from an iOS, Android, Mac, Chromebook, or Windows device. There’s no setup necessary beforehand – just use the native AirPlay®, Google Cast™, or Miracast™ protocol built into your laptop, smartphone, or tablet. For security, the WAVE-101 can randomly generate PIN access codes.

**Dynamic Layout Mode (patent pending)**

For hands-free, effortless user operation, Dynamic Layout Mode™ is an innovative feature of the WAVE-101 that automatically adapts the on-screen layout to incoming or disconnected source content, to optimize the way the content is presented on the screen.

**Instructor Mode**

Designed for education applications, Instructor Mode allows moderation of sessions with multiple presenters. When activated, Instructor Mode automatically places each newly connected student device into a queue. Through a web portal, the instructor determines which students can share content with everyone.

For existing AV systems in meeting rooms, the WAVE-101 offers an ideal upgrade opportunity to add wireless AV and many other capabilities such as digital signage playback.

Redefining AV for presentation and collaboration

The Omega Series is a family of switching, extension, and video processing solutions with features and technologies designed specifically for today’s meeting and gathering spaces.

They’re essential AV system components made for simple plug-and-play operation to deliver a presentation or video conferencing session, and collaborate with team members. An Omega Series system can be a straightforward, point-to-point setup from meeting table to display, or anchored by an AV switcher with remote endpoints at display or presenter locations.

The Omega Series lets you specify and deliver cost-friendly AV integration solutions for participants to bring in their own devices to present or share content. Omega also makes it very easy to integrate AV systems for video conferencing with popular platforms such as Zoom, Microsoft Teams®, and Cisco® Webex®.

Key Features

- **SIMPLE USER OPERATION** – connect and present (no button to press)
- **UNIVERSAL AV CONNECTIVITY** for USB-C®, HDMI®, and DisplayPort™
- **VIDEO CONFERENCING HUB** – USB interfacing for PCs, cameras, speakerphones, and soundbars

SWITCHER

4x2 Matrix Switcher with USB-C

**AT-OME-MS42**
- HDMI, USB-C, and DisplayPort inputs
- USB-C input for AV, data, and device charging
- HDBaseT™ and HDMI outputs
- 4K to 1080p downscaling for HDMI output
- USB 2.0 extension up to 100 meters
- Audio de-embedding

6x2 Matrix Presentation Switcher with USB

**AT-OME-P562**
- HDMI, USB-C, and HDBaseT inputs
- USB-C input for AV, data, and device charging
- HDBaseT and HDMI outputs
- 4K up/downscaling for HDMI output
- USB 2.0 extension up to 330 feet (100 meters)
- Comprehensive audio integration features

5x2 Matrix Switcher with USB and Wireless AV Input

**AT-OME-MS52W**
- HDMI, USB-C, DisplayPort, and wireless AV inputs
- USB-C input for AV, data, and device charging
- HDBaseT and HDMI outputs
- Native screen casting with AirPlay®, Google® Cast™, and Miracast™
- USB 2.0 extension up to 330 feet (100 meters)
- Also available: **AT-UHD-SW-510W** (similar but without USB)

Visit [atlonacom](http://atlonacom) for more complete product information, including datasheets and specifications.

Omega Series

2x1 Switcher for HDMI and USB-C with USB Hub
AT-OME-MH21
HDMI and USB-C inputs
Integrated USB 3.0 hub
4K/UHD capability @ 60 Hz / 4:4:4 chroma sampling
4K to 1080p downscaling
Audio de-embedding

3x2 Matrix Switcher for HDMI and USB-C
AT-OME-SW32
Selectable AV switching modes
4K/UHD capability @ 60 Hz / 4:4:4 chroma sampling
Support for HDR formats
4K to 1080p downscaling
Audio de-embedding

3x1 Switcher for HDMI and USB-C
AT-OME-ST31A
Mirrored HDBaseT and HDMI outputs
Designed for remote powering
Local powering available with optional power supply
4K to 1080p downscaling for HDMI output
Audio de-embedding

Wallplate Switcher for HDMI and USB-C with USB Hub
AT-OME-SW21-TX-WPC
2x1 switcher and HDBaseT transmitter
US one-gang enclosure
Interchangeable black or white trim kits
USB 2.0 extension up to 330 ft (100 m)
Remote powering

HDBaseT Transmitter for HDMI with USB
AT-OME-EX-TX
Transmitter for HDMI, Ethernet, power, control, and USB
USB 2.0 extension up to 330 ft (100 m)
Remote powering

Wallplate Transmitter for USB-C
AT-OME-EX-TX-WPC
Transmitter for USB-C, power, control, and USB
USB-C input for AV and data
US one-gang enclosure
Interchangeable black or white trim kits
USB 2.0 extension up to 330 ft (100 m)
Remote powering

Wallplate Transmitter for HDMI and USB-C
AT-OME-EX-TX-WP-E
Transmitter for HDMI, Ethernet, power, control, and USB
Two-gang enclosure
Interchangeable EU/UK trim kits
USB 2.0 extension up to 330 ft (100 m)
Remote powering

Omega Series

**HDBaseT Receiver/Scaler with HDMI input and USB**

**AT-OME-SR21**
- Receiver for HDMI, Ethernet, power, and control
- USB 2.0 extension up to 300 ft (100 m)
- 4K up/downscaling
- Remotely powers HDBaseT transmitter
- Dual Ethernet ports and integrated network switch
- Contact closure for screen or display lift control

**HDBaseT Receiver/Scaler with HDMI input**

**AT-OME-RX21**
- Receiver for HDMI, Ethernet, power, and control
- Two HDBaseT inputs and an HDMI input
- 4K up/downscaling
- Remotely powers two HDBaseT transmitters
- Dual Ethernet ports and integrated network switch
- Contact closure for screen or display lift control

**HDBaseT Receiver for HDMI with USB**

**AT-OME-EX-RX**
- Receiver for HDMI, Ethernet, power, and control
- USB 2.0 extension up to 300 ft (100 m)
- Supplies or receives power over HDBaseT
- Audio de-embedding

**HDBaseT Receiver for HDMI with USB**

**AT-OME-SR21**
- Receiver for HDMI, Ethernet, power, and control
- USB 2.0 extension up to 300 ft (100 m)
- 4K up/downscaling
- Remotely powers HDBaseT transmitter
- Dual Ethernet ports and integrated network switch
- Contact closure for screen or display lift control

**HDBaseT Receiver for HDMI with USB**

**AT-OME-EX-RX**
- Receiver for HDMI, Ethernet, power, and control
- USB 2.0 extension up to 300 ft (100 m)
- Supplies or receives power over HDBaseT
- Audio de-embedding

**HDBaseT Extender for HDMI with USB**

**AT-OME-EX-KIT**
- Extender kit for HDMI, Ethernet, power, control, and USB
- Extends 4K/UHD video up to 330 feet (100 meters)
- USB 2.0 extension up to 330 ft (100 m) for 4K/UHD
- Transmitter powered by receiver

**Wallplate HDBaseT Extender for HDMI with USB**

**AT-OME-EX-WP-KIT**
- Extender kit for HDMI, power, control, and USB
- Extends up to 230 feet (70 meters) @ 1080p, or up to 130 feet (40 meters) @ 4K/UHD
- US one-gang enclosure
- Interchangeable black or white trim kits
- USB 2.0 extension up to 130 ft (40 m) for 4K/UHD
- Transmitter powered by receiver

**Wallplate HDBaseT Extender for HDMI with USB**

**AT-OME-EX-WP-KIT-LT**
- Extender kit for HDMI, power, control, and USB
- Extends up to 230 feet (70 meters) @ 1080p, or up to 130 feet (40 meters) @ 4K/UHD
- US one-gang enclosure
- Interchangeable black or white trim kits
- USB 2.0 extension up to 130 ft (40 m) for 4K/UHD
- Transmitter powered by receiver

Enterprise-grade, professional quality

Atoma Captivate™ is a series of audio video solutions developed specifically for unified communications (UC) applications. They work in unison to optimize soft codec videoconferencing experiences.

Atoma PTZ cameras are ideal for video conferencing and other applications such as lecture capture and distance learning. Models are available with USB, HDMI®, or HDBaseT™ outputs. All deliver high performance, professional-quality imaging with video resolutions up to 1080p, as well as fast and accurate auto-focusing, and a fast yet quiet pan and tilt mechanism.

Atoma cameras and speakerphone are ideal for use with the Omega™ Series and OmniStream™ USB over IP systems.

Captivate 4K ePTZ Auto-Framing Camera
AT-CAP-FC110
USB 3.0 interface for video and audio
Standard UVC driver for universal PC compatibility
Automatically detects and re-frames camera for up to 6 participants
2-microphone array with 5 m (16 ft) audio pickup range
High performance imaging, fine detail, and color rendering with 1/2.8" 4K CMOS sensor
4x digital zoom and 110° wide horizontal field of view

Captivate USB / Bluetooth Speakerphone
AT-CAP-SP100
USB, Bluetooth®, and analog audio connectivity
360-degree coverage up to 16 feet (5 meters)
6-element microphone array, acoustic echo cancellation, and noise suppression enhance voice intelligibility
8-hours of battery operation on a single charge
Cascade mode allows two speakerphones to cover larger meeting spaces

PTZ Camera with USB
AT-HDVS-CAM
USB 2.0 interface for video
Standard UVC driver for universal PC compatibility
H.264 and H.265 IP streaming
High performance imaging, fine detail, and color rendering with 1/2.8" low-noise, HD CMOS sensor
10x optical zoom and 60.9° horizontal field of view

PTZ Camera with HDMI and USB
AT-HDVS-CAM-HDMI
HDMI output and USB 2.0 interface for video
Standard UVC driver for universal PC compatibility
H.264 and H.265 IP streaming
High performance imaging, fine detail, and color rendering with 1/2.8" low-noise, HD CMOS sensor
10x optical zoom and 60.9° horizontal field of view

PTZ Camera with HDBaseT
AT-HDVS-CAM-HDBT
HDBaseT output extends video, power, and control
Supports remote powering over HDBaseT
H.264 and H.265 IP streaming
High performance imaging, fine detail, and color rendering with 1/2.8" low-noise, HD CMOS sensor
10x optical zoom and 60.9° horizontal field of view

Visit atona.com for more complete product information, including datasheets and specifications.
Versatile 4K/UHD HDMI® Over HDBaseT™ Extension

The Atlona Avance Series of HDMI extender kits are the latest generation of reliable HDBaseT extenders for 4K/UHD AV signals. To provide increased performance and reliability, the Avance Series includes key features and technologies to ensure video transmission integrity and quality. The series includes models with a variety of powering and extension distance options plus integration-friendly features to benefit any application.

**Key Features**

- **SUPPORT FOR RESOLUTIONS** up to 4K/UHD @ 60 Hz 4:2:0
- **EDID FILTERING** - prevents extension of unsupported resolutions to increase the integrity of video transmission
- **CLOCK STRETCHING** - improves interoperability with legacy and low-quality HDMI video sources
- **HDBaseT LINK TEST** - enables easy verification of cabling, termination, and link quality at the point of install
- **FLEXIBLE POWERING** - kits available with local power supplies, TX -> RX remote power, or TX <-> RX bidirectional power
- **CONTROL/DATA OPTIONS** – kits available with no control, extension of RS-232 / IR, or extension of Ethernet / RS-232 / IR

**Avance 4K/UHD HDMI Extender Kit**

**AT-AVA-EX70-2PS-KIT**

- Supports resolutions up to 4K/UHD @ 60 Hz 4:2:0
- Extend 4K up to 40 meters (130 feet) with Category 6/6A
- Local power supply for both transmitter and receiver

**Avance Extender Kit with Remote Power**

**AT-AVA-EX70-KIT**

- Supports resolutions up to 4K/UHD @ 60 Hz 4:2:0
- Extend 4K up to 40 meters (130 feet) with Category 6/6A
- Remote power, transmitter powers receiver over HDBaseT

**Avance Extender Kit with Control and Remote Power**

**AT-AVA-EX70C-KIT**

- Extend 4K up to 40 meters (130 feet) with Category 6/6A
- Extends bidirectional RS-232 and IR control signals
- Remote power, transmitter powers receiver over HDBaseT

**Avance Extender with Control and Bidirectional Power**

**AT-AVA-EX70C-BP-KIT**

- Extend 4K/UHD up to 40 meters (130 feet) with Category 6/6A
- Extends bidirectional RS-232 and IR control signals
- Bidirectional remote power, kit may be powered by either transmitter or receiver
- HDMI ARC for audio return from the display

**Avance Extender with Ethernet, Control, and Bidirectional Power**

**AT-AVA-EX100C-BP-KIT**

- Extend 4K/UHD up to 100 meters (330 feet) with Category 6/6A
- Extends bidirectional Ethernet data as well as RS-232 and IR control signals
- Bidirectional remote power, kit may be powered by either transmitter or receiver
- HDMI ARC for audio return from the display

4K HDR integration building blocks

The **AT-JUNO-451** is a compact, problem-solving switcher engineered for 4K/UHD and HDR-capable sources and displays. It's compatible with 4K HDR10 and Dolby® Vision™ and fully supports video resolutions, audio formats, and color space formats in the HDMI® 2.0b specification. With EDID management, auto-switching, and full control capabilities, the JUNO-451 is at home in residential or commercial applications.

Atlona offers a family of products to extend and distribute 4K/60 4:4:4 and 4K HDR video, all designed to deliver pristine-quality image presentations in residential and commercial applications.

**EXTENDER KIT**

**HDMI Over HDBaseT™ TX/RX Kit**

**AT-HDR-EX-70-2PS**
- HDBaseT extender kit for HDMI up to 230 ft. (70 m)
- 4K/60 4:4:4
- Compatible with 4K HDR10 and Dolby Vision
- HDCP 2.2 compliant
- HDBaseT link status testing

**EXTENDER KIT**

**HDMI Over HDBaseT TX/RX with Control and PoE**

**AT-HDR-EX-70C-KIT**
- HDBaseT extender kit for HDMI, power, and control up to 230 ft. (70 m)
- 4K/60 4:4:4
- Compatible with 4K HDR10 and Dolby Vision
- HDCP 2.2 compliant
- HDBaseT link status testing

**EXTENDER KIT**

**HDMI over HDBaseT TX/RX with Ethernet, Control, PoE, and Audio**

**AT-HDR-EX-100CEA-KIT**
- HDBaseT extender kit for HDMI, audio, Ethernet, power, and control up to 330 ft. (100 m)
- 4K/60 4:4:4
- Compatible with 4K HDR10 and Dolby Vision
- HDCP 2.2 compliant
- RX to TX audio return via optical pathway
- HDBaseT link status testing

**MATRIX SWITCHERS**

**4x4 and 8x8 HDMI to HDMI Matrix Switchers**

**AT-HDR-H2H-44MA • AT-HDR-H2H-88MA**
- 4K/60 4:4:4
- Compatible with 4K HDR10, Dolby Vision, and HLG (Hybrid Log-Gamma)
- HDCP 2.2 compliant
- Independent CEC display control to each output
- HDMI audio de-embedding for each output

**DISTRIBUTION AMPLIFIERS**

**Two, Four, and Eight-Output HDMI Distribution Amplifiers**

**AT-RON-442 • AT-RON-444 • AT-RON-448**
- 4K/60 4:4:4
- Compatible with 4K HDR10, Dolby Vision, and HLG (Hybrid Log-Gamma)
- HDCP 2.2 compliant
- EDID management
- Supports cascading up to eight units

**AUDIO DE-EMBEDDING**

**4K HDR Multi-Channel Audio Converter**

**AT-HDR-M2C**
- HDMI audio de-embedding and multi-channel audio downmixing
- 4K/60 4:4:4
- Compatible with 4K HDR10 and Dolby Vision
- HDCP 2.2 compliant

Problem solvers and finishing touches

Sometimes you just need one more feature to round out a project and this is where Atlona accessories can help.

**AT-OCS-900N** and **AT-DISP-CTRL** provide automated control for AV systems and displays in small meeting rooms based on occupancy or signal detection. The **AT-USB-EX100-KIT** is a USB 2.0 extender that makes it easy to add an additional remote USB camera, microphone, or speaker to video conferencing rooms. The **Etude™ Sync (AT-ETU-SYNC)** provides EDID emulation and Hot Plug Detect communication between HDMI® devices to correct signal integrity issues associated with cabling, connections, or compatibility. The Pocket 3H (**AT-PKT-3H**) and **LinkConnect™** cables provide convenient cable connectivity, access, and management for BYOD environments.

**Network-Enabled Occupancy Sensor**

**AT-OCS-900N**
- Multi-function sensor detects occupancy, temperature, and ambient light level
- IP-enabled for communicating state over Ethernet
- Works with WAVE™ and Velocity™ for AV automation
- Shares status with third parties over common protocols
- Customizable detection area from 900 – 2,000 sq. ft.

**Display Controller**

**AT-DISP-CTRL**
- Ideal for huddle rooms without AV systems
- Simple, automated display control via IP, RS-232, IR, or CEC
- Programmable display control modes
- Local or PoE (Power over Ethernet) powering
- Comprehensive display driver selection from the Velocity™ control system database

**USB 2.0 Extender Kit**

**AT-USB-EX100-KIT**
- USB 2.0 extension up to 330 feet (100 meters)
- Perfect for use with conferencing apps when USB components are in different areas of the room
- Transmitter features one USB-B and two USB-A ports
- Receiver features four USB-A
- Compact enclosures for flexible mounting

**EDID Emulator for 4K HDR Signals**

**AT-ETU-SYNC**
- EDID emulation for HDMI signals
- 5 Volt and Hot Plug Detect emulation
- Detects and resolves signal handshaking issues between source and destination devices
- 4K/60 4:4:4 plus HDR formats

**Architectural Cable Access Enclosure**

**AT-PKT-3H**
- Tabletop cable access enclosure
- Under-table cable management system
- Supplied insert holds three cables in place
- Low-profile design for any modern or traditional décor
- Convenient under-table bag conceals cables

**LinkConnect Cables**

**AT-LC-H2H**
- HDMI to HDMI cables - 1, 2, and 3 meters

**AT-LC-MDP2H**
- Mini DisplayPort to HDMI cables - 1, 2, and 3 meters

**AT-LC-UC2UC**
- USB-C to USB-C cable - 2 meters

Panduit + Atlona: The Leader in AV Solutions

Atlona, a Pandit company, is a leading manufacturer of AV distribution, AV over IP, collaboration, and control solutions. From home offices to Fortune 500 boardrooms, and from auditoriums to stadiums, Atlona products are relied upon by a diverse customer base for their AV needs. We work hard to ensure even the most cutting-edge technology is as easy to use as it is to integrate.

Atlona follows strict quality assurance standards that are applied throughout the entire organization. Ensuring that we are delivering the highest quality solutions possible—and that we are improving upon them continuously—is the responsibility of every employee.

In November 2021, Atlona’s headquarters in San Jose, California received ISO 9001:2015 certification. This achievement underlines the company’s dedication to the ongoing delivery of technological excellence.

OUR VISION
Improving Technology for the Sharing of Ideas

OUR MISSION
We prioritize quality, user experience, simplicity, and management in every product we develop.
