Velocity – AV control, scheduling, configuration, and remote access
AN INNOVATIVE IP-BASED CONTROL SYSTEM that saves valuable time with the ability to configure control systems in minutes, and quickly make system modifications free of extensive programming. In addition to AV control, Velocity includes calendar integration for room scheduling touch panels, centralized configuration of AV devices, and remote management from the cloud. Page: 6

OmniStream – Uncompromised AV over IP performance and reliability
DELIVERS HIGH PERFORMANCE, DEPENDABLE AV DISTRIBUTION, plus the unrestricted scalability and cost efficiency of integrating over data networks. OmniStream Pro is engineered for the most demanding, mission-critical applications. OmniStream R-Type offers performance and capabilities optimized for light commercial AV distribution. Page: 8

WAVE – Wireless Audio Visual Environment for collaboration
A UNIVERSAL WIRELESS BYOD SYSTEM for up to four presenters to cast right from their mobile devices. The WAVE also supports digital signage, YouTube live streaming, video playback, and more. Page: 10

Omega – AV for modern workspaces and meeting environments
A FAMILY OF SWITCHING, EXTENSION, AND VIDEO PROCESSING SOLUTIONS with features and technologies designed for today’s meeting and gathering spaces. Transmitters: Connectivity into an AV system for source devices with HDMI or USB-C outputs, as well as USB for video conferencing applications. Switchers: Compact matrix switchers designed specifically for small to medium-sized presentation applications. Receivers: Slim and compact for discreet installation, and a range of features and capabilities beyond receiving HDBaseT from a transmitter or switcher. Page: 12

Captivate™ - High performance videoconferencing solutions
A SERIES OF AUDIO VIDEO SOLUTIONS developed specifically for unified communications (UC) applications. The auto-framing camera and USB / Bluetooth® speakerphone work in unison to optimize soft codec videoconferencing experiences. Page: 18

Visit atlonacom for more complete product information, including datasheets and specifications.
Application: Huddle Space Videoconferencing

Many workers have become accustomed to hosting videoconferencing sessions on their laptop. At the office, they may be required to host these sessions in a conference space and include in-person attendees. In these instances, it is important to have the right AV equipment, so all participants are seen and heard clearly.

Atona offers critical components that help improve the soft codec videoconferencing experience. The AT-OME-MH21 is versatile USB-C and HDMI switcher equipped with a USB 3.0 hub for video conferencing peripherals. Our new Captivate™ Series of audio and video solutions for unified communications (UC) includes the AT-CAP-FC110 auto framing camera and the AT-CAP-SP100 USB / Bluetooth® speakerphone.

When users connect their laptop to the system, they gain access to the high-resolution camera and conferencing grade speakerphone for use with popular applications such as Zoom and Microsoft Teams®.

- **CONFERENCING GRADE AV** – The Captivate Series camera and speakerphone provide video capture and audio performance far superior to the native abilities of laptops.
- **USB-C SUPPORT** – A single connection between the user’s laptop and the system provides access to the display, camera, and speakerphone.
- **AUTOMATIC DISPLAY CONTROL** – Turns the display on when a laptop is connected and off when it is disconnected.

**Featured Products**

- **2x1 Switcher for HDMI and USB-C with USB Hub**
  AT-OME-MH21, see page 13

- **Captivate 4K ePTZ Auto-Framing Camera**
  AT-CAP-FC110, see page 18

- **Captivate USB / Bluetooth Speakerphone**
  AT-CAP-SP100, see page 18

Visit atlona.com for more complete product information, including datasheets and specifications.
Application: Meeting Room Automation

As businesses return to the office, there is an emphasis on flexibility and simplicity when it comes to meeting room AV equipment. Making the room technology fast to start-up and easy-to-use is the key to keeping participants efficient no matter where they are located.

Meeting spaces need to support in-person presentations and remote videoconferences as well as hybrid collaboration that includes both. Automating start-up of AV equipment with components that include the following capabilities help these meetings run smoother.

- **OCCUPANCY DETECTION** – Use presence of individuals in the room as guiding factor for the state of the AV technology.
- **AUTOMATIC DISPLAY CONTROL** – Turn the display on or off based on status of an occupancy sensor.
- **WIRELESS PRESENTATION** – Mirror content from personal BYOD devices over Wi-Fi®.
- **MULTI-FUNCTION SENSOR** – Capture temperature and ambient light levels in addition to occupancy and pass that information to Atlona products and third-party systems to control room elements.

For example, the **AT-OCS-900N** occupancy sensor can detect activity in a room and communicate that information over the network to the **AT-WAVE-101** which instructs the display to turn on. The user then connects wirelessly to the WAVE-101 to mirror their content on the display. When participants leave the space, the occupancy sensor detects vacancy and works with the WAVE-101 to shut-down the AV system. The OCS-900N can also use the network to share occupancy, temperature, and light level information with **Velocity™** to control more complex AV systems as well as screens, shades, and lighting.

### Featured Products

- **Network-Enabled Occupancy Sensor**
  - **AT-OCS-900N**, see page 22

- **Wireless Presentation Platform**
  - **AT-WAVE-101**, see page 10

- **IP-based AV Control Platform**
  - **Velocity**, see page 6

Application: Atlona Room Kits

An end-user is interested in outfitting their 10-person conference room with AV presentation and video conferencing capabilities. Being a straightforward project, the integrator is interested to know if a bundled solution would maximize the efficiency of their administrative, installation, and limited design resources.

Atlona Room Kits answer these questions by providing complete system solutions that offer the following benefits:

- **SINGLE SKU** – Ordering a complete system from one vendor reduces paperwork, complexity, and time.
- **PRE-CONFIGURED** – Systems are designed, assembled, and tested prior to shipment, arriving 80% complete.
- **FAST INSTALLATION** – Exclusive wall-mounted rack is ready-to-hang with equipment and cabling pre-installed. It dramatically reduces installation time, and discreetly hides behind the display.
- **REPEATABLE** – Allows more rooms to be installed faster and more reliably, provides consistent user experience, and simplifies helpdesk support.

**AT-ARK-MC-104-KIT** is an ideal Atlona Room Kit solution for this medium conference room application. It provides routing of HDMI video and USB data for multiple devices such as laptop computers or room PC’s and includes a PTZ camera and touch panel control. It also features a table array microphone, DSP, amplifier, and ceiling speakers for audio performance consistent with the space. The only component that needs to be added is the display which is purchased separately.

Complete AV Systems for Meeting Spaces

**ATLONA ROOM KITS, see page 16**

AV control, scheduling, configuration, and remote access

Atlona Velocity™ is an innovative IP-based control platform that offers a comprehensive set of capabilities for modern AV installations. It saves valuable time with the ability to configure control systems in minutes, and quickly modify functionality free of extensive programming. In addition to AV control, Velocity includes calendar integration for room scheduling touch panels, centralized configuration of AV devices, and remote management from the cloud.

Velocity System Gateways
At the heart of every Velocity system is the gateway, a server that provides processing for a single or multiple rooms of AV control and scheduling. Each gateway also includes the Atlona Management System (AMS) for configuring and managing Atlona devices.

Hardware Gateways
AT-VGW-HW-3 • AT-VGW-HW-10 • AT-VGW-HW-20
Server appliance that supports hundreds of IP device* connections
Three versions available for control of up to 3, 10, or 20 rooms and scheduling up to 6, 20, or 40 rooms respectively

Software Gateway
AT-VGW-SW • AT-VRL-SW
Designed for hosting on standard IT server infrastructure with support for hundreds of IP device* connections
Provides AV control for up to 20 rooms and scheduling up to 40, add additional rooms with AT-VRL-SW licenses

All-in-one Control System
AT-VTPG-1000VL-BL • AT-VTPG-1000VL-WH
10” touch panel with contemporary styling and bezel lighting
Integrated Velocity gateway supports one room of control for up to 24 devices and two scheduling panels

Velocity Products

Premier Services - Remote Gateway
AT-VP5-RG-T1 • AT-VP5-RG-T2 • AT-VP5-RG-T3
Securely configure and manage gateways over the Internet
Automatically backup gateway databases to the cloud
Support QR code and BYOD control of AV systems over the user’s Internet connection instead of through the AV LAN
Multiple tiered levels of service available

10” Touch Panels
AT-VTP-1000-BL • AT-VTP-1000-WH
Designed for room scheduling and AV control
10” capacitive touch screen, 1280 x 800 resolution
Glass and universal one-gang wall mount included
Surround bezel LED lighting
Tabletop mounting available with optional AT-VTP-VTM

8” Scheduling Touch Panels
AT-VSP-800-BL • AT-VSP-800-WH
Designed for room scheduling and AV control
8” capacitive touch screen
1280 x 800 resolution
Bezel LED lighting
Black and white versions available

8” Touch Panels
AT-VTP-800-BL • AT-VTP-800-WH
Designed for AV control and room scheduling
8” capacitive touch screen
1280 x 800 resolution
Black and white versions available
Tabletop mounting available with optional AT-VTP-TMK

5.5” Touch Panels
AT-VTP-550-BL • AT-VTP-550-WH
Designed for AV control and room scheduling
5.5” capacitive touch screen
720 x 1280 resolution
Black and white versions available

Velocity Command Converters
AT-VCC-IR3-KIT
IP to IR Command Converter with Three Emitters
AT-VCC-RELAY-KIT
IP to Relay / Sensor Signal Converter
AT-VCC-RS232-KIT
IP to RS-232 Command Converter

* Total available IP device capacity for AV system control, room scheduling, and AV asset management is dependent on server hardware.
Uncompromised AV over IP performance and reliability

The ultimate AV distribution platform for integrators to design and build flexible, scalable, and cost-effective AV systems – with best-in-class AV over IP performance and reliability over Gigabit Ethernet.

OMNISTREAM PRODUCT FAMILIES – Tailor an OmniStream networked AV system design to your specific needs:

OMNISTREAM PRO – Networked AV designed for conference rooms, lecture halls, facilities, and more, plus AV distribution over large networks

OMNISTREAM R-TYPE – Networked AV streamlined for light commercial AV distribution applications

Learn more at: atlona.com/omnistream
OmniStream provides the essential foundation for designing complete networked AV systems incorporating signal distribution, control, and system management. Atlona Velocity™ is the perfect complement to OmniStream, featuring highly intuitive configuration and user-friendly operation.
Effortless screen casting from any mobile device

The Atlona Wireless Audio Visual Environment (WAVE) is designed for easy content sharing from iOS®, Android™, Mac®, Chromebook™, or Windows® devices. The WAVE-101 allows up to four presenters to share their content simultaneously on-screen, with a moderator mode available for managing additional presenters. Wireless BYOD interfacing is simply enabled through the device’s native casting protocol, with no setup necessary beforehand.

For hands-free, effortless user operation, Dynamic Layout Mode™ is an innovative feature of the WAVE-101 that automatically adapts the on-screen layout to incoming or disconnected source content, to optimize the way the content is presented on the screen.

The WAVE-101 is equipped with a host of additional features to enhance education, corporate, and many other applications, including YouTube Live streaming, support for cloud-based digital signage applications, playback of locally stored images and video, and much more.

Wireless Presentation Platform

AT-WAVE-101

ALLOWS SIMULTANEOUS CONTENT SHARING for up to four presenters
INSTRUCTOR MODE allows a user to manage content, upload and play media content, stream YouTube™, and switch between layouts
OPTIONAL WI-FI® ACCESS POINT – with built-in firewall
SUPPORTS CLOUD-BASED digital signage platforms
SUPPORTS YOUTUBE Live streaming
DYNAMIC LAYOUT MODE automatically adapts to incoming or disconnected source content (patent pending)
WIRELESS SCREEN CASTING through native AirPlay®, Google Cast™, or Miracast™ protocols
SUPPORTS WIRELESS VIDEO up to 1080p30 4:2:0 (up to 1080p60 with Miracast)
LOCAL STORAGE available for playback of images and video
PROGRAMMABLE DISPLAY CONTROL based on time schedules via IP; RS-232 (with optional adapter), or TCP proxy
AUTOMATIC DISPLAY CONTROL available with the AT-OCS-900N occupancy sensor
CENTRALLY CONFIGURE and manage WAVE-101 units with AMS (Atlona Management System™)

Learn more at: atlona.com/wave
The WAVE-101 is ideal for classrooms and meeting spaces, as well as open gathering areas where people come together to collaborate and communicate. The appeal of this product is the ability for participants to quickly and easily share content right from their laptops, smartphones, or tablets, with no advance setup necessary.

The WAVE-101 allows multiple students to share from their seats, with the instructor controlling the presentation through a specially designed moderator mode.

**Wireless BYOD connections as easy as 1-2-3**

The WAVE-101 lets you cast your screen from an iOS, Android, Mac, Chromebook, or Windows device. There’s no setup necessary beforehand – just use the native AirPlay®, Google Cast™, or Miracast™ protocol built into your laptop, smartphone, or tablet. For security, the WAVE-101 can randomly generate PIN access codes.

**Dynamic Layout Mode (patent pending)**

For hands-free, effortless user operation, Dynamic Layout Mode™ is an innovative feature of the WAVE-101 that automatically adapts the on-screen layout to incoming or disconnected source content, to optimize the way the content is presented on the screen.

**Instructor Mode**

Designed for education applications, Instructor Mode allows moderation of sessions with multiple presenters. When activated, Instructor Mode automatically places each newly connected student device into a queue. Through a web portal, the instructor determines which students can share content with everyone.

For existing AV systems in meeting rooms, the WAVE-101 offers an ideal upgrade opportunity to add wireless AV and many other capabilities such as digital signage playback.
Redefining AV for presentation and collaboration

The Omega Series is a family of switching, extension, and video processing solutions with features and technologies designed specifically for today’s meeting and gathering spaces.

They’re essential AV system components made for simple plug-and-play operation to deliver a presentation or video conferencing session, and collaborate with team members. An Omega Series system can be a straightforward, point-to-point setup from meeting table to display, or anchored by an AV switcher with remote endpoints at display or presenter locations.

The Omega Series lets you specify and deliver cost-friendly AV integration solutions for participants to bring in their own devices to present or share content. Omega also makes it very easy to integrate AV systems for video conferencing with popular platforms such as Zoom, Microsoft Teams®, and Cisco® Webex®.

Key Features

SIMPLE USER OPERATION – connect and present (no button to press)
UNIVERSAL AV CONNECTIVITY for USB-C®, HDMI®, and DisplayPort™
VIDEO CONFERENCING HUB – USB interfacing for PCs, cameras, speakerphones, and soundbars
BUILT-IN AUTOMATION with auto-switching, display control, and more
EASILY ADAPTABLE system designs for a facility, organization, or enterprise

SWITCHER

4x2 Matrix Switcher with USB-C
AT-OME-MS42
HDMI, USB-C, and DisplayPort inputs
USB-C input for AV, data, and device charging
HDBaseT™ and HDMI outputs
4K to 1080p downscaling for HDMI output
USB 2.0 extension up to 330 feet (100 meters)
Audio de-embedding

6x2 Matrix Presentation Switcher with USB
AT-OME-PS62
HDMI, USB-C, and HDBaseT inputs
USB-C input for AV, data, and device charging
HDBaseT and HDMI outputs
4K up/downscaling for HDMI output
USB 2.0 extension up to 330 feet (100 meters)
Comprehensive audio integration features

5x2 Matrix Switcher with USB and Wireless AV Input
AT-OME-MS52W
HDMI, USB-C, DisplayPort, and wireless AV inputs
USB-C input for AV, data, and device charging
HDBaseT and HDMI outputs
Native screen casting with AirPlay®, Google® Cast™, and Miracast™
USB 2.0 extension up to 330 feet (100 meters)
Also available: AT-UHD-SW-510W (similar but without USB)

Learn more at: atlona.com/omega
Omega Series

**SWITCHER**

2x1 Switcher for HDMI and USB-C with USB Hub

**AT-OME-MH21**
- HDMI and USB-C inputs
- Integrated USB 3.0 hub
- 4K/UHD capability @ 60 Hz / 4:4:4 chroma sampling
- 4K to 1080p downscaling
- Audio de-embedding

3x2 Matrix Switcher for HDMI and USB-C

**AT-OME-SW32**
- Selectable AV switching modes
- 4K/UHD capability @ 60 Hz / 4:4:4 chroma sampling
- Support for HDR formats
- 4K to 1080p downscaling
- Audio de-embedding

3x1 Switcher for HDMI and USB-C

**AT-OME-ST31A**
- Mirrored HDBaseT and HDMI outputs
- Designed for remote powering
- Local powering available with optional power supply
- 4K to 1080p downscaling for HDMI output
- Audio de-embedding

**SWITCHING TRANSMITTER**

Wallplate Switcher for HDMI and USB-C with USB Hub

**AT-OME-SW21-TX-WPC**
- 2x1 switcher and HDBaseT transmitter
- US one-gang enclosure
- Interchangeable black or white trim kits
- USB 2.0 extension up to 330 ft (100 m)
- Remote powering

HDBaseT Transmitter for HDMI with USB

**AT-OME-EX-TX**
- Transmitter for HDMI, Ethernet, power, control, and USB
- USB 2.0 extension up to 330 ft (100 m)
- Remote powering

**TRANSMITTER**

Wallplate Transmitter for USB-C

**AT-OME-EX-TX-WPC**
- Transmitter for USB-C, power, control, and USB
- USB-C input for AV and data
- US one-gang enclosure
- Interchangeable black or white trim kits
- USB 2.0 extension up to 330 ft (100 m)
- Remote powering

Wallplate Transmitter for HDMI and USB-C

**AT-OME-EX-TX-WP-E**
- Transmitter for HDMI, Ethernet, power, control, and USB
- Two-gang enclosure
- Interchangeable EU/UK trim kits
- USB 2.0 extension up to 330 ft (100 m)
- Remote powering

Omega Series

Omega System Components

The Omega Series is a family of essential AV system components designed for simple plug-and-play operation to deliver a presentation, video conferencing session, and collaborate with team members.

An Omega system can be a straightforward, point-to-point setup from meeting table to display, or anchored by an AV switcher with remote endpoints at display or presenter locations.

Omega Room Builder

Omega Room Builder (builder.atlona.com) is an online resource to help you select Omega Series AV switchers and extenders for your AV integration project or system design.

With the Omega Room Builder, you can easily specify an AV presentation or collaboration system, with the opportunity to contact us for further information or design assistance.
Bundled AV systems for meeting room environments

Meeting spaces typically include AV technology that allows participants to present content to a display or collaborate via video conferencing. Making these systems work requires integration of video, audio, USB, control, display, and networking components from several different manufacturers. Engineering, configuration, testing, and procuring these systems, as well as dependably repeating them can be difficult and time consuming.

**Atlona Room Kits** solve these issues by providing bundled, fast-to-install AV systems for some of the most common spaces where AV is used including huddle, conference, and training rooms.

**Atlona Room Kits are only sold through distributor-partners in the US and Canada**

---

**SINGLE SKU**
- Ordering from one vendor reduces paperwork, complexity, and time
- Systems ship complete reducing logistics and inventory issues
- Consistent budgeting – reliably forecast equipment costs depending on room type

**FAST INSTALLATION**
- Exclusive enclosure with pre-installed AV components and cables arrives ready-to-hang
- Discreetly mounts on the wall behind the display
- Reduces room down time

**PRE-CONFIGURED**
- Systems are engineered, assembled, configured, and tested prior to shipment
- System is 80% complete when it arrives with only site-specific parameters remaining
- Velocity™ control system pre-loaded with default configuration for each room kit, no programming required

**REPEATABLE**
- Standardization means more rooms can be installed faster and more reliably than customized solutions
- Every room works the same, reducing training requirements
- Support is easier due to similar equipment and limited number of configurations

Learn more at: [atlona.com/ark](http://atlona.com/ark)
ATLONA ROOM KITS

Exclusive Wall-Set Rack

Atlona Room Kit solutions include an exclusive wall-mounted rack that arrives ready-to-hang with equipment and cabling pre-installed. The sleek, low-profile enclosure discreetly mounts behind the display, and dramatically reduces installation time.

Huddle Room Kit

**AT-ARK-HR-104-KIT**
- Designed for huddle rooms that host up to 4 people
- Provides routing of HDMI video and USB data for a single device
- Includes a speakerphone, PTZ camera, and touch panel control
- 55" display recommended and is purchased separately

Small Conference Room Kit

**AT-ARK-SC-104-KIT**
- Designed for conference rooms that host up to 6 people
- Provides routing of HDMI video and USB data for multiple devices
- Includes a speakerphone, PTZ camera, and touch panel control
- 65" display recommended and is purchased separately

Medium Conference Room Kit

**AT-ARK-MC-104-KIT**
- Designed for conference rooms that host up to 10 people
- Provides routing of HDMI video and USB data for multiple devices
- Includes a PTZ camera, touch panel control, table array microphone, DSP amplifier, and ceiling speakers
- 75" display recommended and is purchased separately

Training Room Kit

**AT-ARK-TR-201-KIT**
- Designed for training rooms that host sessions of up to 20 people
- Provides routing of HDMI video and USB data for multiple devices, as well as remote inputs from instructors and students
- Includes touch panel control, two PTZ cameras, support for a second display, ceiling array and desk microphones, DSP amplifier, and ceiling speakers
- 85" displays recommended and are purchased separately

Visit [atlonacom](http://atlonacom) for more complete product information, including datasheets and specifications.

Enterprise-grade, professional quality

Atlona Captivate™ is a series of audio video solutions developed specifically for unified communications (UC) applications. They work in unison to optimize soft codec videoconferencing experiences.

Atlona PTZ cameras are ideal for video conferencing and other applications such as lecture capture and distance learning. Models are available with USB, HDMI®, or HDBaseT™ outputs. All deliver high performance, professional-quality imaging with video resolutions up to 1080p, as well as fast and accurate auto-focusing, and a fast yet quiet pan and tilt mechanism.

Atlona cameras and speakerphone are ideal for use with the Omega™ Series and OmniStream™ USB over IP systems.

Captivate 4K ePTZ Auto-Framing Camera
AT-CAP-FC110
- USB 3.0 interface for video and audio
- Standard UVC driver for universal PC compatibility
- Automatically detects and re-frames camera for up to 6 participants
- 2-microphone array with 5 m (16 ft) audio pickup range
- High performance imaging, fine detail, and color rendering with 1/2.8” 4K CMOS sensor
- 4x digital zoom and 110° wide horizontal field of view

Captivate USB / Bluetooth Speakerphone
AT-CAP-SP100
- USB, Bluetooth®, and analog audio connectivity
- 360-degree coverage up to 16 feet (5 meters)
- 6-element microphone array, acoustic echo cancellation, and noise suppression enhance voice intelligibility
- 8-hours of battery operation on a single charge
- Cascade mode allows two speakerphones to cover larger meeting spaces

PTZ Camera with USB
AT-HDVS-CAM
- USB 2.0 interface for video
- Standard UVC driver for universal PC compatibility
- H.264 and H.265 IP streaming
- High performance imaging, fine detail, and color rendering with 1/2.8” low-noise, HD CMOS sensor
- 10x optical zoom and 60.9° horizontal field of view

PTZ Camera with HDMI and USB
AT-HDVS-CAM-HDMI
- HDMI output and USB 2.0 interface for video
- Standard UVC driver for universal PC compatibility
- H.264 and H.265 IP streaming
- High performance imaging, fine detail, and color rendering with 1/2.8” low-noise, HD CMOS sensor
- 10x optical zoom and 60.9° horizontal field of view

PTZ Camera with HDBaseT
AT-HDVS-CAM-HDBT
- HDBaseT output extends video, power, and control
- Supports remote powering over HDBaseT
- H.264 and H.265 IP streaming
- High performance imaging, fine detail, and color rendering with 1/2.8” low-noise, HD CMOS sensor
- 10x optical zoom and 60.9° horizontal field of view

See all cameras and learn more at: atlona.com/cameras
Versatile 4K/UHD HDMI® Over HDBaseT™ Extension

The Atlona Avance Series of HDMI extender kits are the latest generation of reliable HDBaseT extenders for 4K/UHD AV signals. To provide increased performance and reliability, the Avance Series includes key features and technologies to ensure video transmission integrity and quality. The series includes models with a variety of powering and extension distance options plus integration-friendly features to benefit any application.

Key Features

- **SUPPORT FOR RESOLUTIONS** up to 4K/UHD @ 60 Hz 4:2:0
- **EDID FILTERING** - prevents extension of unsupported resolutions to increase the integrity of video transmission
- **CLOCK STRETCHING** - improves interoperability with legacy and low-quality HDMI video sources
- **HDBaseT LINK TEST** - enables easy verification of cabling, termination, and link quality at the point of install
- **FLEXIBLE POWERING** - kits available with local power supplies, TX -> RX remote power, or TX <-> RX bidirectional power
- **CONTROL/DATA OPTIONS** - kits available with no control, extension of RS-232 / IR, or extension of Ethernet / RS-232 / IR

Avance 4K/UHD HDMI Extender Kit

**AT-AVA-EX70-2PS-KIT**
Supports resolutions up to 4K/UHD @ 60 Hz 4:2:0
Extend 4K up to 40 meters (130 feet) with Category 6/6A
Local power supply for both transmitter and receiver

Avance Extender Kit with Remote Power

**AT-AVA-EX70-KIT**
Supports resolutions up to 4K/UHD @ 60 Hz 4:2:0
Extend 4K up to 40 meters (130 feet) with Category 6/6A
Remote power, transmitter powers receiver over HDBaseT

Avance Extender Kit with Control and Remote Power

**AT-AVA-EX70C-KIT**
Extend 4K up to 40 meters (130 feet) with Category 6/6A
Extends bidirectional RS-232 and IR control signals
Remote power, transmitter powers receiver over HDBaseT

Avance Extender with Control and Bidirectional Power

**AT-AVA-EX70C-BP-KIT**
Extend 4K/UHD up to 40 meters (130 feet) with Category 6/6A
Extends bidirectional RS-232 and IR control signals
Bidirectional remote power, kit may be powered by either transmitter or receiver
HDMI ARC for audio return from the display

Avance Extender with Ethernet, Control, and Bidirectional Power

**AT-AVA-EX100C-BP-KIT**
Extend 4K/UHD up to 100 meters (330 feet) with Category 6/6A
Extends bidirectional Ethernet data as well as RS-232 and IR control signals
Bidirectional remote power, kit may be powered by either transmitter or receiver
HDMI ARC for audio return from the display

4K HDR integration building blocks

The **AT-JUNO-451** is a compact, problem-solving switcher engineered for 4K/UHD and HDR-capable sources and displays. It’s compatible with 4K HDR10 and Dolby® Vision™ and fully supports video resolutions, audio formats, and color space formats in the HDMI® 2.0b specification. With EDID management, auto-switching, and full control capabilities, the JUNO-451 is at home in residential or commercial applications.

Atlona offers a family of products to extend and distribute 4K/60 4:4:4 and 4K HDR video, all designed to deliver pristine-quality image presentations in residential and commercial applications.
Panduit Connectivity & Routing Products

**Panduit Connectivity & Routing** products provide a professional finishing touch for any installation. The collection of above floor raceway, coupler modules, and patch cables are ideal for discreetly installing AV devices and managing cabling for conference rooms, huddle spaces, classrooms, training spaces, and more. Panduit Connectivity & Routing products have been carefully selected to complement Atlona extension, switching, and control devices to deliver robust, reliable, and scalable AV distribution over structured cabling, while also providing a pleasing aesthetic.

NOTE: Panduit Connectivity & Routing products are available only to Atlona customers in the United States.

<table>
<thead>
<tr>
<th>Product</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Panduit Pan-Way® Above Floor Raceway</td>
<td>AFR4 Series. Designed for installations where it is not possible to route data, AV, and power cables through floor or ceiling conduit. Numerous color and fitting options are available.</td>
</tr>
<tr>
<td>Panduit HDMI® and USB Coupler Modules</td>
<td>CMHDMI • CMUSBAA. HDMI and USB couplers for customizing Panduit Mini-Com® table box frames. NKHDMI • NKUSBAA. HDMI and USB couplers for customizing Panduit NetKey® table box frames.</td>
</tr>
<tr>
<td>Panduit TX6A™ 10Gig Patch Cables</td>
<td>UTP6A Series. Category 6A UTP patch cables that include patented MaTriX technology to suppress alien crosstalk. STP6X Series. Shielded twisted pair cables that offer high performance and excellent EMI suppression for reliable transmission.</td>
</tr>

Problem solvers and finishing touches

Sometimes you just need one more feature to round out a project and this is where Atlona accessories can help.

**AT-OCS-900N** and **AT-DISP-CTRL** provide automated control for AV systems and displays in small meeting rooms based on occupancy or signal detection. The **AT-USB-EX100-KIT** is a USB 2.0 extender that makes it easy to add an additional remote USB camera, microphone, or speaker to video conferencing rooms. The **Etude™ Sync (AT-ETU-SYNC)** provides EDID emulation and Hot Plug Detect communication between HDMI® devices to correct signal integrity issues associated with cabling, connections, or compatibility. The **Pocket 3H (AT-PKT-3H)** and **LinkConnect™** cables provide convenient cable connectivity, access, and management for BYOD environments.

**Network-Enabled Occupancy Sensor**

**AT-OCS-900N**
- Multi-function sensor detects occupancy, temperature, and ambient light level
- IP-enabled for communicating state over Ethernet
- Works with WAVE™ and Velocity™ for AV automation
- Shares status with third parties over common protocols
- Customizable detection area from 900 – 2,000 sq. ft.

**Display Controller**

**AT-DISP-CTRL**
- Ideal for huddle rooms without AV systems
- Simple, automated display control via IP, RS-232, IR, or CEC
- Programmable display control modes
- Local or PoE (Power over Ethernet) powering
- Comprehensive display driver selection from the Velocity™ control system database

**USB 2.0 Extender Kit**

**AT-USB-EX100-KIT**
- USB 2.0 extension up to 330 feet (100 meters)
- Perfect for use with conferencing apps when USB components are in different areas of the room
- Transmitter features one USB-B and two USB-A ports
- Receiver features four USB-A
- Compact enclosures for flexible mounting

**EDID Emulator for 4K HDR Signals**

**AT-ETU-SYNC**
- EDID-emulation for HDMI signals
- 5 Volt and Hot Plug Detect emulation
- Detects and resolves signal handshaking issues between source and destination devices
- 4K/60 4:4:4 plus HDR formats

**Architectural Cable Access Enclosure**

**AT-PKT-3H**
- Tabletop cable access enclosure
- Under-table cable management system
- Supplied insert holds three cables in place
- Low-profile design for any modern or traditional décor
- Convenient under-table bag conceals cables

**LinkConnect Cables**

**AT-LC-H2H**
- HDMI to HDMI cables - 1, 2, and 3 meters

**AT-LC-MDP2H**
- Mini DisplayPort to HDMI cables - 1, 2, and 3 meters

**AT-LC-UC2UC**
- USB-C to USB-C cable - 2 meters

Panduit + Atlona: The Leader in AV Solutions

Atlona, a Panduit company, is a leading manufacturer of AV distribution, AV over IP, collaboration, and control solutions. From home offices to Fortune 500 boardrooms, and from auditoriums to stadiums, Atlona products are relied upon by a diverse customer base for their AV needs. We work hard to ensure even the most cutting-edge technology is as easy to use as it is to integrate.

Atlona follows strict quality assurance standards that are applied throughout the entire organization. Ensuring that we are delivering the highest quality solutions possible—and that we are improving upon them continuously—is the responsibility of every employee.

In November 2021, Atlona’s headquarters in San Jose, California received ISO 9001:2015 certification. This achievement underlines the company’s dedication to the ongoing delivery of technological excellence.

OUR VISION
Improving Technology for the Sharing of Ideas

OUR MISSION
We prioritize quality, user experience, simplicity, and management in every product we develop.
