The Atlona AT-OME-PS62 is a 6x2 matrix switcher with HDMI, USB-C, and HDBaseT inputs, plus HDMI and HDBaseT outputs. Part of the Omega™ Series of integration products for modern AV communications and collaboration, the OME-PS62 features HDBaseT extension for video up to 4K/60 4:2:0, plus embedded audio, control, Ethernet, and USB over distances up to 330 feet (100 meters). The HDMI and USB-C inputs support video up to UHD/60 4:4:4. The OME-PS62 is HDCP 2.2 compliant and features 4K/60 4:4:4 upscaling and downscaling for the HDMI output. The integrated USB extension addresses the challenge of connecting between USB devices at remote locations, and is ideal for software video conferencing and touch or interactive displays. The OME-PS62 includes USB 2.0 and USB-C interfaces for three host PCs, plus two peripheral devices such as a camera, microphone, speaker phone, or keyboard and mouse. The OME-PS62 is ideal for a wide range of 4K presentation applications with Omega Series transmitters and receivers, plus local HDMI and USB-C sources and the Gain™ 60 or Gain 120 amplifiers.

Package Contents

1 x AT-OME-PS62
1 x Captive screw connector, 6-pin
4 x Captive screw connector, 5-pin
1 x Captive screw connector, 3-pin
1 x USB-C cable
4 x Mounting screws
1 x Pair rack mount ears
1 x IEC power cord
1 x Installation Guide

Panel Descriptions

1. **Function Buttons**
   - **MENU** - Access the front panel menu or use as a back button within the menu. The menu can be used to route inputs, change audio and EDID settings, and view device information.
   - **ENTER** - Used for making selection within the front panel OSD.
   - ^ and ^ - Use to navigate through the front panel menu.

2. **Number Buttons**
   Use for selection of inputs and outputs.

3. **MIC/LINE input**
   Connect microphone or line input to this port.

4. **MIC/LINE dip switch**
   Use to switch between MIC, 48V, and line input.

5. **AUDIO IN**
   Connect 2CH audio sources to these ports.

6. **AUDIO OUT**
   Connect to an audio DSP, amplifier, or other audio distribution devices.

7. **RS-232**
   Use for device or display control.

8. **IP MODE LED and button**
   Press and hold the button for 5 seconds until the LED blinks to switch the IP mode between DHCP and Static IP modes. The LED will blink 2 times for DHCP and 3 times for static IP.

9. **RESET LED and button**
   Press and hold the button for 5 seconds until the unit resets. The LED will blink as the unit resets to factory default settings.

10. **HDBaseT IN**
    Connect a compatible HDBaseT transmitter to this port.

11. **HDMI IN**
    Connect HDMI cables to these ports from HDMI sources.

12. **USB-C IN**
    Connect a USB-C source to this port.

13. **USB HUB**
    Connect USB devices to these ports. e.g. USB camera, mouse, etc.

14. **HOST USB**
    Connect to a computer using a USB B to USB A cable.

15. **HDBaseT Output**
    Connect a CAT5e/6/6a/7 cable from this port to an HDBaseT receiver.

16. **HDMI Output**
    Connect an HDMI cable from here to an HDMI display.

17. **LAN**
    Connect an Ethernet cable to this port for control of the unit or to pass Ethernet to a local device.

18. **100-240VAC 50/60Hz Power Port**
    Connect the included IEC cord from this port to the wall for power.
RS-232

A 3-pin captive screw connector has been included for RS-232.

**NOTE:** Port 1 is for unit control and port 2 will control the display.

Pin out will be determined by the RS-232 cable and connect as RX (receive), TX (transmit) and Ground (Ground). Ground will be shared between port 1 and port 2.

Audio

Connect to an audio DSP, amplifier, or other audio distribution devices.

**NOTE:** Port 1 is for unit control and port 2 will control the display.

Audio connectors:
- **Balanced**
- **Unbalanced**
- **Mono**
- **Two channel**

MIC / LINE

Connect dynamic or self-powered microphones in this mode.

Use this setting for phantom powered microphones. Supplies 48 volts.

Connect wireless microphone receivers (or other sources) with line level outputs using this setting. Either balanced, unbalanced, mono, or two channel connections may be used.
Mounting Instructions

The AT-OME-PS62 can be mounted in a standard 19-inch rack or placed freestanding on top of a desk or table.

**Rack installation**

1. Remove the front two case screws from the sides of the case.
2. Attach the included rack ears to each side of the AT-OME-PS62 using the case screws.
3. Install the OME-PS62 into a rack, using four rack screws.

**NOTE:** Increase the air flow as needed to maintain the recommended temperature inside the rack.

**NOTE:** Do not exceed the maximum weight loads for the rack. Install heavier equipment in the lower part of the rack for stability.
Surface mounting

The AT-OME-PS62 can be placed freestanding on top of a desk, a table, or in a cabinet. To prevent damage to the surfaces or unnecessary movement of the matrix, four feet have been included.

1. Turn the unit upside down.
2. Install each foot using the included feet screws, the rubber grips of the feet should be facing up during installation.
3. Turn the unit right-side up and place it in the desired location.

Cable Recommendation Guidelines

Refer to the tables below for recommended cabling when using Altona products with HDBaseT. The green bars indicate the signal quality when using each type of cable. Higher-quality signals are represented by more bars.

<table>
<thead>
<tr>
<th>Core</th>
<th>Shielding</th>
<th>CAT5e</th>
<th>CAT6</th>
<th>CAT6a</th>
<th>CAT7</th>
</tr>
</thead>
<tbody>

<td>330 feet (100 meters)</td>
</tr>
</tbody>
</table>

Use of a TIA/EIA 568B termination is recommended for optimal performance.
Installation

1. Connect compatible HDBaseT transmitters (e.g. AT-OME-ST31 or AT-OME-EX-TX) to the HDBaseT input ports.
2. Connect HDMI and USB-C sources to the HDMI and USB-C input ports.
3. "Optional" Connect 2CH sources to the analog AUDIO IN ports.
4. "Optional" Connect a MIC or line input to the MIC/LINE input port and use the dip switch to ensure the port is in the correct mode.
5. "Optional" Connect the 2CH analog AUDIO OUT ports to an audio DSP, amplifier, or other audio distribution devices.
6. "Optional" Connect USB devices (e.g. USB camera) to the USB hub ports.
7. "Optional" Connect the HOST USB port to a computer using a USB B to USB A cable (cable not provided).
8. "Optional" For control, connect to the 3-pin captive screw RS-232 port.
9. "Optional" Connect a network switch to one of the LAN ports, for IP control, system configuration, or Ethernet routing.
10. Connect an HDMI cable from the HDMI output port to a local display.
11. Connect a compatible HDBaseT Receiver (e.g. AT-OME-EX-RX) to the HDBaseT output port.
12. Connect the included IEC power cord from the power port to a compatible power outlet.

IP

DHCP

By default, the AT-OME-PS62 is set to DHCP mode. In this mode, when the AT-OME-PS62 is connected to the Local Area Network (LAN), it will automatically be assigned an IP address by the DHCP server (if available). Press the DEVICE IP button to show the IP address in the top left corner of the display.

Static

If no DHCP server is available, or a static IP is required, the OME-PS62 can be set to static IP mode using the IP mode button.

- Press and hold the IP MODE button for 5 seconds to switch to static IP mode, the LED will blink 3 times when it goes into Static IP mode. In this mode, the AT-OME-PS62 will be set to the following:
  IP address: 192.168.1.254
  Subnet mask: 255.255.0.0
  Gateway: 192.168.1.1

- To switch back to DHCP, press and hold the IP mode button for 5 seconds. The LED will blink 2 times when successfully put into DHCP mode.
Accessing the webGUI

The AT-OME-PS62 includes a built-in webGUI, which allows easy remote management and control of all features. Follow the instructions below to access the webGUI.

1. Make sure that an Ethernet cable is connected between the LAN port on the AT-OME-PS62 and the network.
2. Press the DEVICE IP button on the front panel to display the IP address of the unit in the top left corner of the connected display.
3. Launch a web browser and enter the IP address in the address bar.
4. The AT-OME-PS62 Login page will be displayed.
5. Enter the following information on the Login page.
   Login: admin
   Password: Atlona
6. Click the Login button.
7. Refer to the user manual for detailed operation of the webGUI.

AMS 2.0

For easy configuration of Atlona devices, AMS 2.0 is available from https://atlona.com/ams for free. Two options can be used for installation: The free Linux based software download or the easy to install server hardware (AT-AMS-HW).

Once AMS has been set up:
1. Open a browser on the same network as AMS 2.0 and go to the IP address of AMS 2.0.
   View the AMS 2.0 installation instructions on how to find the IP address of the software.
2. Enter the login information on the AMS 2.0 web page, then click the Login button.
